Contents:

1.1 Site Structure

The inner structure of the UoD website follows a hierarchy routine. Except the homepage (which is the top parent), every single page has at least one ancestor. As shown in the figure below:

1.2 Page

Page is the basic units of the UoD website infrastructure. Every content in the system is a page.

2.1 Types

Pages are classified into types to meet different aspects. They are:

Note: Types ending with “list” are just containers for the types with the preceding word. For example, `Activity List` page has to be added as a parent of the subsequent `Activity` pages.

Type	Allowed Parent Type	Allowed Child Type
Activity List	[a]	Activity
Activity	Activity List	[c]
Announcement List	[a]	Announcement
Announcement	Announcement List	[c]
Contact Form Page	[a]	[c]
Contact Page	[a]	[c]
Directorate List	[a]	Directorate
Directorate	Directorate List	[c] [s] except College
Event List	[a]	Event
Event	Event List	[c]
Form Page	[a]	[c]
News List	[a]	News
News	News List	[c]
Office List	[a]	Office
Office	Office List	[c]
Page	[a]	[c]
Project List	[a]	Project
Project	Project List	[c]
Research List	[a]	Research
Research	Research List	[c]
Scholarship List	[a]	Scholarship
Scholarship	Scholarship List	[c]
Workshop List	[a]	Workshop
Workshop	Workshop List	[c]
Seminar List	[a]	Seminar
Seminar	Seminar List	[c]
Unit List	[a]	Unit

Type	Allowed Parent Type	Allowed Child Type
Unit	Unit List	[c]
College List	[l]	College
College	College List	[c]
Center List	[s] except Center	Center
Center	Center List	[c]

2.2 Content Tab

2.2.1 Title

The title is required (at least in English (EN)), without it the page can not be created. Title is also required for auto-generating the Slug and the HTML Page title.

▼

TITLE

Sept. 30, 2016, 12:03 P.

A Delegation Form GIZ

Slideshow Request

Ticking this notifies the super admin to approve the content and get displayed on the homepage slideshow.

- **Type:** Check Box.
- **Default Value:** Unchecked.

Warning: Be careful. Choosing inappropriate content may cause denial. The first image added, to the article, is used for the slideshow. Invalid images will be rejected. Please take a look at the **image specifications policy**.

Breaking News Request

Ticking this notifies the super admin to approve the content and get displayed on the homepage breaking news bar.

- **Type:** Check Box.
- **Default Value:** Unchecked.

HomePage Body Request

Ticking this notifies the super admin to approve the content and get displayed on the homepage “Top Stories” section.

- **Type:** Check Box.
- **Default Value:** Unchecked.

2.3.2 Side Menu

▼

SIDE MENU

Sidemenu:

☒

Whether the page has a sidebar or not

Show in sidemenu:

☐

Show in sidemenu

Sidemenu order:

Ordering is from the lowest number (at the top) to the largest (in the bottom)

Sidemenu parent:

CHOOSE A PAGE

Choose a menu parent page. If you don't, self parent will be used.

Sidemenu

Displays or hides the side menu on the page.

- **Type:** Check Box.
 - **Default Value:** Checked.
-

Show in sidemenu

Adds the link of the page as an item in the sidemenu.

- **Type:** Check Box.
 - **Default Value:** Unchecked.
-

Sidemenu Order

The order of the page link among its siblings on the same menu level.

- **Type:** Integer.
- **Default Value:** 0.

Note: Ordering starts from the minimum value and goes down with the increase of the value. So, zero (0) is on the top, (1) one is the next and so on.

Tip: For a more dynamic approach, put the value (0) for the first item, and (10) for the second, (20) for the third and so on. In this way you'll save some places for the new outcome items, to be inserted between, as needed.

Note: Similar values are handled on the basis of alphabetical order.

Sidemenu Parent

Each page has a parent. But if you want to change it in the side menu you can replace it here.

- **Type:** Page.
 - **Default Value:** Null.
-

2.3.3 Listing

LISTING

Listing order:

0

Ordering is from the lowest number (at the top) to the largest (in the bottom)

Listing order

The order of the page link among its siblings in the listing page. For example, list of members.

- **Type:** Integer.
- **Default Value:** 0.

#	Name	Job Title
1	Dr. Nashwan Shawkat Mizzouri	Lecturer
2	Dr. Bahzad Mohammad Ali Noori	Assistant Pro
3	Dr. Ali Flayeh Hassan	Assistant Pro
4	Dr. Salih Hassan Abdullah	Lecturer
5	Dr. Gehan Abdullah Alsofi	Lecturer
6	Dr. Najdat Sabri Abdukhaliq	Lecturer

Example 1: List of Departments

Example 2: List of Academic Memembers

Note: Ordering starts from the minimum value and goes down with the increase of the value. So, zero (0) is on the top, (1) one is the next and so on.

Tip: For a more dynamic approach, put the value (0) for the first item, and (10) for the second, (20) for the third and so on. In this way you'll save some places for the new outcome items, to be inserted between, as needed.

Note: Similar values are handled on the basis of alphabetical order.

2.3.4 Common

COMMON

Title: *

The page title as you'd like it to be seen by the public

Slug: *

The name of the page as it will appear in URLs e.g http://domain.com/blog/[my-slug]/

Page title:

Optional. 'Search Engine Friendly' title. This will appear at the top of the browser window.

Search description:

Exclude from the search:

☐

Hide this page from search results

Redirect Page URL:

Open in:

Same Window

Title

This field is the same as the English title

- **Type:** String.
- **Default Value:** Automatically generated from the English title.

Slug

The last part of the web address for the page. E.g. the slug for a blog page called ‘The best things on the web’ would be the

- **Type:** String.
- **Default Value:** Automatically generated from the English title.

Warning: Slugs should be entirely lowercase, with words separated by hyphens (-).

Page Title

An optional, search-engine friendly page title. This is the title that appears in the tab of your browser window. It is also the

- **Type:** String.
- **Default Value:** Automatically generated from the English title.

Search Description

This field allows you to add text that will be displayed if the page appears in search results. This is especially useful to dist

- **Type:** String.
- **Default Value:** Automatically generated from the English title.

Exclude from the search

Ticking this will hide this page from the search result. This is useful for incompleated or private pages.

- **Type:** Check Box.
- **Default Value:** Unchecked.

Redirect Page URL

Once you fill up this field, the page will eventually be turned into a simple link. This comes in handy when adding an external

- **Type:** URL.
- **Default Value:** Null.

Note: The system totally ignores the other page fields (except the `Title`) when the value of this field is set.

Open in

This belongs to the `Redirect Page URL` field. You have the option whether to open the link in the same window or in

- **Type:** Select field.
- **Default Value:** 'Same Window'.

[a] **Any type.**

[c] **Common:** Activity, Announcement, Contact Form Page, Contact Page, Event List, Form Page, News List, Page, Project List, Research List, Scholarship List, Seminar List, Workshop List.

[s] **Spatial:** Office, College, Unit, Center, Directorate

[l] **LOCKED**
